The University of the Aegean

1.1. Establishment & Development

The University of the Aegean was founded on March 20, 1984 under the Presidential Decree 83/1984, making real the vision of the great Greek Mathematician C. Caratheodori. The University of the Aegean is an innovative institution in that it is dispersed over six islands in the Aegean Archipelago and its schools and departments offer study opportunities and interdisciplinary programs, catering to the complexity of current scientific knowledge.

The academic goal of the University is to develop new directions in the field of Higher Education, responding to the evolving demands of the modern world. Fields of studies such as the Environment, the Social Sciences, Business Sciences, the Natural Sciences, Information Technologies and Communications, Humanities, Greek and Mediterranean Studies constitute the main areas of focus.

In addition to providing modern education, the University focuses its activities on promoting and fostering basic and applied research with well-equipped laboratories. At the same time, the University attempts to contribute to the development of Greece as a whole and to the Aegean region in particular, turning the Aegean islands into a center of excellence in science and education.

Today, the University of the Aegean comprises 6 Schools, 18 Bachelor programs and 51 Postgraduate Study Programs, all operating on the islands of Lemnos, Lesvos, Chios, Samos, Rhodes and Syros. The university also engages in significant research projects.

For more information visit: www.aegean.gr.

1.2 The School of Management Sciences (Business School)

The Business School has been operating in Chios since 1998, comprising the following departments:

- Business Administration
- Shipping, Trade and Transport
- Department of Tourism Economics & Management

The aim of the Business School is the study and analysis of the external and internal environment of business enterprises, ensuring the search for, selection and application of the most appropriate and effective responses in business challenges. This aim is pursued through:

- provision for high quality training in all fields of management.
- scientific research.
- combining education and research with practical training through partnerships with industry and organizations.

The Dean of the School of Business is **Professor Emmanuel Christofakis**.

The Deanery is composed of the Dean, the Department Heads, a representative from each of the following: Specialized Faculty (SF), Specialized Teaching Staff (STS) and Technical Laboratory Staff (STLS). Representatives of undergraduate, graduate and doctoral students also participate in the Deanery.

2.1 Department of Business Administration (DBA)

The Department of Business Administration was the first department of the University of the Aegean to admit students at undergraduate level in the fall semester of the 1985- 86 academic year. To date, the Department has awarded 2620 Bachelor's degrees, 1245 Master's degrees and 121 doctoral degrees.

The curriculum allows students to select modules according to their personal preferences and career orientation. The curriculum's streams are:

- Management
- Entrepreneurship and Sustainable Growth
- Accounting
- Marketing
- Finance
- Digitalization and Innovation

2.1.2. Postgraduate Studies Programs (PSP)

➤ Master in Business Administration – MBA

The MBA is planned, organized and implemented by the Department of Business Administration. The program offers a Master's Degree in the following areas of specialization:

1. Management
2. Auditing and Financial Analysis
3. Operations and Innovation

➤ Executive MBA

The Executive MBA started operating in the 2015-2016 academic year and was upgraded in 2018-2019. This program provides knowledge, skills, techniques and management tools to working professionals seeking to expand their skills and knowledge.

The Executive MBA offers a Master's Degree in Business Administration for Executives, in the following areas of specialization:

1. Business Administration
2. Entrepreneurship
3. Accounting – Finance

➤ **DBA Collaborations with Postgraduate Programs**

- The Department of Business Administration, the Department of Tourism Economics & Management and the Department of the Environment of the University of the Aegean have organized and run the Interdepartmental Postgraduate Program "Strategic Management of Tourist Destinations and Hospitality Businesses", (running since the academic year 1998 - 1999), under the responsibility of the Department of Business Administration until 2022-2023, while TODIT has now assumed responsibility. The aim of this program is to educate and train students on various issues related to tourism and tourism development.
- The Department of Tourism Management of the University of Western Attica and the Department of Business Administration of the University of the Aegean run the joint postgraduate program "Innovation and Entrepreneurship in Tourism."
- The Departments of Economics and Sustainable Development, Geography and Informatics and Telematics of the Harokopeion University, the Department of Business Administration of the University of the Aegean and the IREST of the Université Paris I Pantheon – Sorbonne, run the joint postgraduate program "Sustainable Tourism Development: Heritage, Environment, Society".

3. Research Activity in the Department of Business Administration

Research focuses on developing new knowledge that can be beneficial for businesses in the Aegean region and contributes to the improvement of enterprises and of the social and economic environment in the region. Research concentrates on:

- Business Administration
- Accounting, Cost Accounting and Auditing,
- Economic Theory
- Finance and Econometrics
- Management Science
- Decision Making Theory

- Operations Research
- Production Systems
- Tourism Development and Policy
- Quantitative Methods
- Entrepreneurship and Innovation
- Business Strategy and Policy
- Human Resources Management and Organisational Behavior

3.1. Laboratories in the Department of Business Administration

➤ Quantitative Methods Laboratory (QM Lab)

Director: Professor Maria Mavri

The Laboratory of Quantitative Methods was established in September 2003. Its main objective is research and development of methods and techniques that contribute to the efficient management of modern organizations, operating in a changing business environment.

Members of the Lab are:

- Quantitative Methods Faculty (Mathematics, Statistics, Operational Research).
- Adjuncts and PhD candidates, whose experience and research interests are related to quantitative methods and their applications.

The Laboratory also cooperates with faculty members not only of the DBA but also of the other Departments of the School of Management Sciences, whose fields of study fall within the interests of Business Administration, Finance, Finance, Information Technology and Communications.

The Laboratory of Quantitative Methods collaborates with universities, organizations and research institutes, aiming at the transfer and diffusion of know-how and research on issues of common interest.

The research fields of the Laboratory are the following:

Statistical analysis

This field focuses on the design of statistical research, sampling, database creation, statistical data analysis and statistical inference. In addition to research the field is also a source of specialized information for the world of business.

Decision making

This field focuses on the decision-making process on issues relating to business management, as well as on knowledge, innovation and quality management. The Lab

uses state-of-the-art methodologies and techniques. At the same time, it develops and implements its own methodologies case-specific, and always aims at improving the quality of business decisions taken and at developing integrated decision support systems.

Regional Analysis

The regional problem, namely the uneven development of the various regions of the country and the difficulties faced by isolated and insular regions, is of great research interest to the Lab. The main purpose of this field is to determine the level of development of a geographical area and its future prospects, with an emphasis on island regions. The Lab has developed a methodology for calculating the attractiveness of a geographical area and its development potential.

The Lab has engaged in extensive research and has participated in several European and national programs. During this period, more than 20 papers have been published in international scientific journals, while approximately 30 papers are in progress, some of which have been presented at international and national conferences. The Lab has participated in the organization of two international and one national conferences.

In short, the research activity conducted in the Lab enables new scientists belonging to various fields of study to collaborate and solve business management problems.

➤ Finance, Banking and Logistics Studies and Education Laboratory

Director: Professor Apostolos Christopoulos

Laboratory description:

The Laboratory focuses on education and research in the fields of Finance, Banking, Money and Capital Markets, Corporate Governance, Sustainability and Sustainable Development in all sectors of the economy, as well as on the application of ESG criteria and their effects on businesses. Its mission is to:

1. Serve the research needs of the Department of Business Administration, as well as those of the other Departments in the Business School and other collaborating Departments.
2. Support the educational process of the undergraduate curriculum of the Department of Business Administration.
3. Develop and implement research methods and instruments for the benefit of undergraduate, postgraduate students and doctoral candidates, as well as stakeholders such as department graduates, business executives and companies.
4. To promote research, through participation in research programs of national, European and international bodies.

5. Develop collaboration with Research Laboratories and Institutes of other Universities in Greece and abroad.
6. To collaborate with local, regional and national bodies such as Ministries, Local Authorities, Chambers of Commerce, Business Associations, Cooperatives, Unions and Businesses.
7. To strengthen student scientific proficiency and professional prospects, through participation in educational and scientific activities (conferences, seminars, events), as well as through networking with collaborating organizations.
8. Promote teamwork and cooperation, through participation of student groups in laboratory activities.

Other participations/partnerships:

- Organization of the 12th International Conference and Summer School ASECU YOUTH
- ASECUYOUTH2023, 06/08/2023 – 13/08/2023, Chios.
- Cooperation with the Competition Commission

➤ Laboratory of Management, Entrepreneurship & Innovative Education"(EDEKE)

Director: Professor Michael Bekiaris

Laboratory Description

The Laboratory serves the educational and research needs in the disciplines of Business Administration of Enterprises and Organizations, Business Policy and Strategy, Entrepreneurship and Management of Family Businesses.

An additional aim of the Laboratory is the development and implementation of systematic and innovative methods of education for undergraduate and postgraduate students of the Department of Business Administration, but also for other interested parties, business executives and organizations.

Furthermore, the Laboratory participates in international research programs of European and International Bodies in the fields of its scientific and research scope.

Finally, the Laboratory promotes systematic contact, networking and interaction with Entrepreneurial Organizations (Business Associations, Chambers of Commerce, Businesses Unions) and Businesses in order to serve its research interests and link students with the above bodies.

Research Projects:

The Laboratory is responsible for the implementation of the following research projects since 2019 with Assistant Professor Ioannis Kinias in charge.

1. Erasmus+/Capacity Building in the field of Higher Education titled: “**MSc course in Food Processing and Innovation / FOODI**” 5.11.2018 –15.11.2022.
16 Partners (11 Asian – 5 European), Budget: 999.056 €.
2. Erasmus+/Capacity Building in the field of Higher Education titled: “**MSc course in Family Business Management / FAB**” 15.11.2020 – 14.11.2023.
22 Partners (16 Asian – 6 European), Budget: 999.264 €.
3. Erasmus+/ KA220, Cooperation Partnerships for vocational education and training titled: “**Support Family Business - Sfab**” 28.02.2022 – 27.02.2024.
7 European Partners, Budget: 267.500 €.
4. Erasmus+/ KA220, Cooperation Partnerships for vocational education and training) titled: “**ReEngineering BUSIness under cLimaTe crisis - REBUILT**” 28.02.2022 – 27.02.2024.
9 European Partners, Budget: 284.944 €.

Further Partnerships

In the context of International Partnerships, EDEKE has signed a Memorandum of Cooperation (MoU) with the School of Business Administration of the UCLan Cyprus University and the CENTER FOR ENTREPRENEURIAL DEVELOPMENT, ALLIANCE, AND RESEARCH (CEDAR)- signed on June 7, 2021.

The Laboratory has also been active in the co-organization of two conferences:

1. “FOODI International Conference 2022 – Breaking Boundaries Transcending Trajectories”, Universiti Teknologi Malaysia, Kuala Lumpur, Malaysia, 7-9 November 2022.
2. “1st JA Greece International Conference – “Entrepreneurship Education: Applications and Good Practices at School and University (JA Conference 2021)”, Online, September 2021.

Finally, in the context of the research activities it participates in and coordinates, the Laboratory cooperates with Universities and research bodies in countries such as: Portugal, Ireland, Italy, Cyprus, Denmark, Bulgaria, Belgium, France, Austria, Cambodia, Malaysia, Philippines, Bangladesh , Bhutan, Nepal, Thailand.

Laboratory staff have visited universities abroad in the context of research projects. (Denmark-Odense, France-Lyon, Malaysia-Kuala Lumpur, Philippines-Manila, Italy-Salerno, Bulgaria-Vratsa).

Distinctions

The Laboratory has established and implements the annual event "ENTREPRENEURSHIP DAY" to encourage student groups to implement Business Plans and participate in Nationwide Student Entrepreneurship Competitions.

The student groups representing the University of the Aegean have won important distinctions.

5th Nationwide Student Competition JA Greece - Social Impact Award - Innocity (2019)

7th Nationwide Student Competition JA Greece - 3rd Place - Farmit (2021)

8th Nationwide Student Competition JA Greece - 2nd Place - 3Deal – (2022)

The Binter Team qualified to the Intel Pan-European Competition - (2022)

➤ **Laboratory of Technology and Innovation Management (EDITEK)**

Director: Dr. Konstantinos Koutsikos, Associate Professor

Description of Laboratory activities

The Lab focuses on combining strategy and technology to design and implement innovative and practical research, educational and consulting projects, and result dissemination activities:

- In 3 thematic fields
 - o Transformations of organizations (business transformation) - business ecosystems
 - o Innovation management (corporate venturing)
 - o Value analysis (value engineering) - value flow simulations).
- In 2 areas
 - o Disruptive information technologies
 - o Corporate sustainability strategies
- In 2 economic sectors
 - o Energy & Environment sector
 - o Luxury Services & Goods (luxury sector)

The Laboratory structure is supervised by an international Advisory Board.

Projects (in progress or completed)

In progress:

- "Digital Transformations of Organizations in the Context of Ecosystems of Organizations " (funding: ELIDEK)
- "Bridging Sustainable Tourism and Agrofood: an Innovative Approach" (funding: ELIDEK)

Completed (recently):

- "A digital Solid Waste reuse platform for Balkan" (funding: European Union)
- "Innovimenter" (funding: European Union).

Other participations/partnerships

International:

- Center for Digital Business Transformation, IMD Business School (Switzerland)

National:

- Department of Economics and Sustainable Development, Harokopion University
- Department of Tourism Management, University of Western Attica

Distinctions

- Co-organization of a conference with Stanford University (Women in Data Science - WiDS Athens Forum)
- All research projects of the Laboratory are ranked in the top five on the evaluation list.

➤ Laboratory of Development Studies and Research (EAME)

Director: Professor Emmanuel Christofakis

Description of Laboratory activities

The Laboratory of Development Studies and Research (EAME) was founded in 2022, replacing the Tourism Research and Studies Laboratory, which operated in the Department of Business Administration (DBE) since 2000.

It serves educational and research needs related to key dimensions of development at local, regional, national and beyond-national level. More specifically, the activity of the Laboratory focuses on the subjects of Economic Development, Regional and Local Development and Politics, Regional Policy (Political Cohesion) of the European Union, Urban Development, Development and Regional Planning, Quantitative Methods of Regional Analysis, of Sustainable Development, Regional Resilience, Circular Economy, Innovation, Local Entrepreneurship and Sectoral Development (e.g. Transport, Tourism, Manufacturing, Rural Development).

EAME Laboratory: objective - mission

- Serving the research needs of the Department of Business Administration (DBA), as well as those of other departments in the Business School (Chios) that collaborate with the DBA, in the above academic subjects.
- The support of the educational process and the Curriculum in the DBA.
- The development and implementation of research methods for the benefit of the Department's undergraduate, postgraduate students and PhD candidates, as well as

the development of specially designed educational programs for groups of stakeholders, such as graduates and business executives.

- The promotion of research, through participation in research programs of national, European and international bodies.
- The development of collaboration with Research Laboratories and Institutes of other Universities in Greece and abroad, the undertaking of joint projects that promote research, and the encouragement of extroversion in the Department and the University.
- The collaboration with the local and regional community and businesses and the systematic cooperation with bodies at local, regional and national level (such as Ministries, Local Authorities, Chambers of Commerce, Business Associations, Cooperatives).
- Expanding student knowledge and enhancing their professional prospects through their participation in activities such as conferences, seminars, and other events as well as in the research activity of the Laboratory, and through their networking with cooperating agencies.

The Laboratory is staffed by faculty members (DEP) whose research and educational activities fall within their research, educational and scientific interests, as well as by other staff of the Department of Business Administration of the University of the Aegean (e.g. Members E. E.P., E.D.I.P., E.T.E.P., Administrative Staff, etc.). Undergraduate and postgraduate students as well as PhD candidates can also take part in the activities of the Laboratory.

4. Communication with the Business and Social Environment

The Liaison Committee

The Liaison Committee acts as a liaison between the Department of Business Administration and the social and business environment by promoting communication and networking. The committee is composed of the teaching and research staff, students and business representatives. It engages in various activities which primarily focus on the improvement of student training by combining theory and practice in the management and organization of businesses.

Liaison Committee Activities:

- Internships for students.
- Lectures by business executives.
- Field trips to businesses.
- Career Days.
- Collaboration with the School of Business in educational and research activities.
- Workshops promoting cooperation between the Business School and businesses.

Students may:

- Have hands-on experience, applying theory to practice.
- Gain experience and knowledge that will facilitate their career orientation.

Teaching and research staff may:

- Have the opportunity to collaborate with Greek company executives from various fields.
- Get updated on current trends in the business world.

Business Executives may:

- Network with students so they can choose their future colleagues.
- Cooperate with the business school which can help in resolving business issues.

Internship

The Liaison Committee pioneered an Internship program, the first of its kind in Greece. The program was established in 1985 and runs successfully to date. Interns are remunerated by the company or organization they are occupied by. Throughout their internship, students are counseled, guided and assessed by both the Department and the business.

Internships may count as an elective course. The internship program is repeated annually. It begins on July 1st and ends on August 31st for undergraduate students. For graduating students (seniors), the internship program runs all year round on a quarterly basis.

- 1st quarter: January 1 – March 31
- 2nd quarter: April 1 – June 30
- 3rd quarter: July 1 - September 30
- 4th quarter: October 1 – December 31

Lectures by Business Executives

Business executives, distinguished professionals and influential community members are invited as guest speakers. The lectures are addressed to both students and members of the Chios community. They are related to issues of corporate governance and to the overall economic and social environment.

Field Trips

The curriculum includes field trips to various businesses on the island and throughout the country. These trips are organized annually to provide students with a better understanding of putting theory into practice. The field trips program is announced in the beginning of the spring semester of each academic year.

Career Days

The Department organizes Career Days in Chios where executives from various companies are invited to attend. Graduating and graduate students are interviewed with a view to exploring future employment opportunities.

Cooperation with companies in educational and research activities

This cooperation involves training business executives by the Department, and it also includes the completion of Master's and Doctoral dissertations on issues of interest to various enterprises, as well as cooperation in research programs.

Organization of Workshops

The Department organizes conferences where students, faculty and business executives participate and exchange viewpoints on issues relating to the cooperation of the University with businesses, to the internship program and to the work of the liaison committee. Also suggestions for improvements are made.

5. Infrastructure/Premises

The University premises are located in the center of the city of Chios and are easily accessible by public transport. Some of the buildings have been preserved and are reminiscent of the rich architecture and history of Chios Island. The University premises are improved thanks to wide support by the local community and ongoing expansion programs.

5.1. The Buildings

The Michaleion building (3069 square meters, formerly Michaleion Orphanage), located at 8 Michalon Street houses most of the educational and administrative activities of the Business School. It includes 5 Lecture halls, an Auditorium, a Library and a reading room, 2 Computer centers, an Audio-visual foreign language laboratory, Faculty offices, Administrative Services offices, and a Student Society office, etc.

The Korais building at Argenti Street, next to the Korais Library (936 sq.m.), donated by the Chios City Council, houses the Department of Shipping, Trade and Transport.

The Karradeio building, at 54, M. Livanos street (1427 sq.m.), donated by the Women's Association "Friends of Chios Village", is still under construction. Two lecture halls and faculty offices are housed in the new section of the building.

Student housing (4200 sq.m – 6 buildings) located by the waterfront in the Tagma Despoti area, has been donated by the Holy Order of St. Panteleimon. Just 4 km from the city centre, the six dormitories have 179 rooms with private bathrooms, shared kitchens and common reception areas.

The Auditorium of the School of Business.

5.2. The Library

The Library of the School of Business is part of the Central University Library. They both operate under a common policy in processing library materials, planning, development and strategy. The Central library is on-line with all local University libraries (Lesvos, Samos, Rhodes, Syros, Lemnos).

The book collection consists of approximately 33,500 volumes and 106 international periodicals/journals.

Library users have online access to journals and can order books or articles from other libraries in Greece or abroad through the National Documentation Centre. The books are classified according to the Dewey Decimal System, following the Anglo- American cataloguing regulations and are indexed in compliance with the thematic headings of The Library of Congress.

There is a reading room equipped with copying and microfilm-microfiche machines. The general public is allowed access to the library. For further information, contact: Ph. +30 22710 35030 - 35033.

5.3. Computer Centers

The original equipment was donated by the New York Chian Federation and is continuously updated and expanded. There are three Computer Centers serving the needs of the Computer courses as well as the research needs of the faculty and doctoral candidates. All students of the Department have free access to the computer centers. They are open daily from 9:00 am until 9:00 pm. For further information, contact: Ph. +30 22710 35166.

5.4. The Language Lab

The Language Lab supports the English Language courses of the Business School. It is used mainly for listening exercises and group discussion. The equipment was donated by the Holy Order of Saint Panteleimon and consists of 24 student workstations, a teacher console, a cabinet housing 24 audio source units as well as an interactive board and a projector.

5.5. Teleconference Rooms

There are two teleconference rooms in the Mihalio Building. They are fully equipped with an interactive board, communication units, image and sound recording devices, etc., interconnecting the departments of the University of the Aegean on other islands and elsewhere.

6. D.B.A.: Operation and Staff

➤ Historical Background

The Department of Business Administration was the first department of the University of the Aegean to admit students and has been operating for 40 years. Its official opening took place on October 30, 1985 (Decree 83/1984). The Department began operating in the Fall of 1985 with seven contract faculty members, seven administrative employees and 103 newly admitted students.

Four years later, the Department awarded its first ten Bachelor's degrees.

Mr. Stergios Babanasis was the first professor to be declared emeritus (in the year 2003).

The Department's innovative programs and practices have often been adopted by other departments of the University and by other Greek universities. Among them are:

- Summer Internship Program (1986).
- Liaison Committee (1990),
- Field trips to companies in Greece and abroad Weekly guest lectures
- Student Counseling (1985)

➤ Departmental Institutions

The administration of the Department is exercised by the General Assembly and the Chairman

The General Assembly

The General Assembly is composed of the Department Chairman, the Vice Chairman,

Faculty members and representatives of the Specialized Educational Staff (EEP, EDIP, ETEP) and student representatives.

The Chairman

The Chairman and Vice Chairman are elected every two years. The Chairman's responsibilities are to:

- Head the Department
- Represent the Department in the University Senate and the Deanery
- Convene the General Assembly, prepare agendas and preside over meetings
- Inform the General Assembly of the decisions of the University Senate and the Deanery
- Oversee the implementation of the curriculum
- Ratify the Assembly's decision on the part time status of Faculty members
- Grant leave of absence to Faculty members
- Approve Faculty member transfers
- Inform University institutions of the Department proposals
- Appoint committees on departmental matters
- Oversee publication records of the Department
- Compile and approve the annual report of departmental activities and submits it to the Deanery, the Senate and the Administrative Council
- Exercise all jurisdictions accorded by University regulations

The Chairman of the DBA is Professor Apostolos Christopoulos.

➤ The Academic Staff

Teaching and Research Staff Members (TRS)

The faculty members are elected and appointed according to their qualifications in the following hierarchical order: Professor, Associate Professor and Assistant Professor. Professors and Associate Professors hold permanent positions while Assistant Professors serve for a fixed tenure. Assistant Professors can become tenured faculty members upon meeting specified criteria. The work of TRS members includes educational duties, conducting research and administrative duties, as described below.

- Their duties include: lecturing, organization and supervision of tutorials and workshops, supervising dissertations, testing and assessing student performance, etc.
- Their research duties include: researching specific fields of study, organization of symposia, workshops, conferences etc, the publication of research findings, and the

supervision of doctoral theses. The research can be conducted either under funded projects, or independently.

- The administrative work mainly includes participation in decision making by the University bodies and/or participation in the work of specialized committees or working groups established for promoting particular issues or projects.
- The list of TRS members currently serving in the Department is presented in the following table.

A/A	Surname	Name	Rank	Subject
1.	Glaveli	Niki	Professor	Social Responsibility in Human Resources and Customer Relations
2.	Mavri	Maria	Professor	Quantitative Methods
3.	Bekiaris	Michael	Professor	Accounting
4.	Christopoulos	Apostolos	Professor	Applied Economics and Finance
5.	Christofakis	Emmanuel	Professor	Regional Development & Policy
6.	Gaki	Eleni	Associate Professor	Statistical Methods in Regional Analysis
7.	Koutsikos	Konstantinos	Associate Professor	Innovation and Technology Management Ecosystems of Organizations and Services
8.	Roumeliotis	Michael	Associate Professor	Theory of Law, Contract Law & Business Ethics
9.	Zounta	Stella	Assistant Professor	Accounting – Cost Accounting
10.	Kinias	Ioannis	Assistant Professor	Business Policies in Dynamically Growing Sectors
11.	Anagnostolpoulos	Theodoros	Assistant Professor	Information Systems in Business Administration
12.	Vadasi	Christina	Assistant Professor	Accounting and Auditing
13.	Zervoudi	Evanthia	Assistant Professor	Finance
14.	Kantianis	Dimitrios	Assistant Professor	Production Management

15.	Poulaki	Ioulia	Assistant Professor	Management of Tourism Businesses
16.	Salamoura	Maria	Assistant Professor	Marketing Management
17.	Salahas	Evangelos	Assistant Professor	Finance
18.	Stavrakidis	Triantafyllos	Assistant Professor	Business Law – Business and Management Practices

Adjunct teaching staff are employed to provide educational-teaching services to the Department on a contract basis.

Specialized Educational Staff (SES or EEP)

Members of the EEP perform specialized educational duties which include the development of Business English materials and the teaching of Business English at the DBA.

Name	Subject	Appointment in the DBA	Academic Title
Soukas Georgios	Business English	1985	Master of Arts in Classics 1982, Pennsylvania State Univ, Master of Arts in Linguistics (English Language) 1985, New York Univ.
Tsatsaronis Georgios	Business English (ESP)	1986	Master in Education-Teaching English to Speakers of Other Languages, 1985, Univ. of Maryland, U.S.A.

Specialized Teaching Staff (EDIP)

Members of EDIP are tasked with laboratory - applied teaching duties, such as laboratory and practical exercises, in related fields of study. Mrs Vasiliki Vasileiou is an EDIP staff member teaching Business Administration.

Professor Emeritus

In 2003, Dr. **Stergios Babanasis** was named the Department's first Emeritus Professor. **Dr. Vasilios Angelis** (2016) and **Dimitrios Lagos** (2021) were named Professors Emeritus, too.

Honorary Professors

In 2013, Professor **John Tribe**, Professor at the University of Surrey, was named the Department's first Honorary Professor.

In 2014, **Christopher Pissarides**, Regius Professor at the University of London and the 2010 Nobel Laureate in Economics, was named Honorary Professor.

Honorary Doctor

In 2022 an Honorary Doctorate degree was conferred upon Archbishop Elpidoforos of America.

➤ Administrative Services

The Regional Directorate of Administrative Support operating in Chios comprises the following:

- Student Departmental Secretarial Services are responsible for student registration, issuing certificates, preparing timetables, keeping student records and preparing degree award and commencement ceremonies.
- The Student Affairs Services are responsible for boarding and housing, health care, scholarships and loans.
- Student Internship Services

The administrative services of the Regional Directorate of Chios are headed by Deputy Head, Mr. Fotis Sidirofagis.

The Secretariat of the Department is headed by Mrs. Kyriaki Karamouzou.

➤ Student Bodies

Student Society

The Student Association of the D.B.A was founded in 1985 by undergraduate students and is named after D. Glinos. Its main aim is to identify and solve student problems. The Student Society's Board of Directors is elected annually. It is composed of members who

may represent students in various collective bodies, such as the University Senate, the General Assembly of the Department, and the National Student Union of Greece.

The Society is responsible for organizing various events and groups (i.e. basketball, theater, music, football, dancing, etc). The basketball and football teams participate in the local league.

The Student Society office is located in the Michaleion building and the student General Assembly convenes to address student issues.

7. The Curriculum at DBA

➤ The Aims of the Curriculum are the following:

- The integration of new data and trends, both academically - nationally and internationally, and more broadly at social, economic and business level, as regards the concepts of Entrepreneurship, Innovation, Sustainable Development, Digital Transformation.
- The increase in flexibility of the curriculum with the establishment of 6 Specializations in the place of 3 Streams. Students can choose 2 Specializations to create their own portfolio, depending on their scientific and professional interests. Students will be able to combine interest areas that were not offered in past curricula.
- A student-centered approach, achieved by providing more options and by reducing the Core Courses to 28 from 34, while at the same time increasing the Specialization courses to 8 instead of 6 and the Electives to 12 instead of 8
- The fulfillment of the strategic objectives set in prior evaluations of the Department, as regards the improvement of the General Knowledge Courses Index and the Skills Development Courses Index.

➤ Academic Advisors

Academic Advisors provide counseling and help students with problems or challenges they may encounter in their studies. They offer advice on academic issues like research projects, career paths and postgraduate studies. Academic Advisors are members of the faculty assigned to every student by The General Assembly of the Department.

➤ Graduation Requirements

240 ECTS (European Credit Transfer System) credits or 144 credits are required for the undergraduate Degree in Business Administration.

The number of courses required for graduation is 48 or 46 plus an undergraduate thesis - (10 free elective courses are now required instead

of 12).

More specifically:

- 84 credits or 140 ECTS credits must be from core courses (28 compulsory courses, C-compulsory),
- 24 credits or 40 ECTS credits must be from 8 stream compulsory courses.
- 36 credits or 60 ECTS credits must be from 12 free elective courses or 10 free elective courses plus an undergraduate thesis.

The minimum duration of the undergraduate program is 8 semesters.

- [ECTS credits/units](#)

The purpose of the European Credit Transfer System (ECTS) is to strengthen and facilitate academic recognition procedures between collaborating institutions. The ECTS provides a code of practice for academic recognition by enhancing curricular transparency and students' achievements. 5 ECTS credits are assigned to each module at the Department; 30 ECTS are awarded each semester and 240 ECTS are required for the bachelor's degree.

- [Credits](#)

The teaching hours are the same for all university courses and correspond to an equal number of credits.

1. A credit corresponds to one teaching hour.
2. Each class lasts 3 hours.
3. Students must take a certain number of credits to complete partial requirements.

The curriculum includes only three credit courses.

- [Individualized curriculum and general rules](#)

Students must enroll in a certain number of required courses per semester. In their first year of study students must enroll in the required number of courses per semester as indicated in the curriculum but they may also choose an additional 2 courses. In their following years of study the additional courses students may choose can equal the number of the required courses they must take per semester. That is, when the required courses in a certain semester are six, students may choose six more, totaling a number of twelve per semester.

➤ [Learning Outcomes](#)

Upon completion of their studies students are expected to have acquired the following:

- A scientific approach to solving problems faced by enterprises in the modern world.
- Scientific tools and methods enabling them to cope effectively in a competitive market.

- The capability to pursue postgraduate studies.

➤ Course Categories

The Department of Business Administration offers its students a range of courses which are divided into the following categories:

Category A: Core courses

Category B: Specialization courses

Category C: Elective courses

Category A – Core Courses

Category A courses are foundation “core” courses and are awarded 84 credits or 140 ECTS. They are compulsory and offered in the first two years of study, and some in the third and fourth years. All students must retake and resit any failed courses. The compulsory core courses are the following:

Compulsory Courses			
1st Semester	ECTS	2nd Semester	ETCS
Introduction to Business Administration	5	Business Ethics	5
Introduction to Economics	5	Macroeconomics	5
Introduction to Informatics Reasoning	5	General Principles of Accounting II	5
Introduction to Marketing	5	Microeconomics A'	5
General Principles of Accounting I	5	Statistics in Business Administration	5
Mathematics in Business Administration	5	Innovation Management	5
English Language Basics-Workshop	5	English Language Basics- Workshop	5
3rd Semester	ECTS	4th Semester	ECTS
Entrepreneurship	5	Analysis of Financial Statements	5
Introduction to Law	5	Contract Law	5
Introduction to Costing	5	Business Operations Management I	5
Microeconomics B'	5	Human Resources Management	5
Data Analysis	5	Finance Management	5
English in Business Administration A' and/or English in Business Administration B'	5	English in Business Administration A' and/ or English in Business Administration B'	5

5th Semester	ECTS	6th Semester	ECTS
Management Information Systems I	5	Management Science	5
Business Strategy and Policy	5	Supply Chain Management	5
Specialization Course	5	Specialization Course	5
Specialization Course	5	Specialization Course	5
Elective	5	Elective	5
Elective	5	Elective	5
7th semester	ECTS	8th Semester	ECTS
Specialization course	5	Specialization course	5
Specialization course	5	Specialization course	5
Elective	5	Elective	5
Elective	5	Elective	5
Elective	5	Elective	5

Category B: Specializations

Specialized courses focus on the following:

1. They examine the specifics of the design, organization and operation of companies, either in specific areas of activity or in the current system of ownership and control of the company.
2. They delve deeper, either into the study of individual operations of the company, or into the study of the conditions and consequences of the utilization of certain methods, techniques and / or technologies, for the promotion or analysis of specific aims of the company.
3. Focus on the study of specific social, economic or legal dimensions of the business environment.

Students must choose 2 of the six specializations offered and must pass 4 courses in each chosen specialization. (8 compulsory courses- 24 credits or 40ECTS credits).

A prerequisite for enrollment in a specialization, as well as for the registration in any course included in the specialization, is the successful completion of at least 50% of core courses (ie, 14 core courses - 42 credits or 70 ECTS credits). Thus students complete the 2nd year of study.

The Internship course can be taken after the completion of the first year of study.

TDE offers the following six specializations:

Specializations			
Fall Semester	ECTS	Εαρινό Εξάμηνο	ECTS
MANAGEMENT			
Services Management	5	Corporate Social Responsibility	5

Change Management	5	Project Management	5
MARKETING			
Strategic Marketing Planning	5	Marketing Research	5
Digital Marketing	5	Consumer Behavior	5
DIGITAL TRANSFORMATION AND INNOVATION			
E-Services Management	5	Technological Innovation & Strategy	5
Business Processes & 3D Structures	5	Management Information Systems II	5
ENTREPRENEURSHIP AND SUSTAINABLE DEVELOPMENT			
Sustainable Development	5	Family Businesses	5
Local Entrepreneurship and SMEs	5	e - Business	5
ACCOUNTING			
Administrative Accounting	5	Corporate Governance - Organization of Business Entities	5
Auditing	5	Special accounting issues	5
FINANCE			
Portfolio Management	5	International Finance	5
Risk Management	5	Money Credit Banks	5

The Elective Courses students must successfully pass are 12 and can be taken from the 5th semester onwards. These courses can be chosen from the total pool of courses offered by the Department of Business Administration.

Category C: Elective Courses

The **Elective Courses** students must successfully pass are 12 and can be taken from the 5th semester onwards. These courses can be chosen from the total pool of courses offered by the Department of Business Administration.

These courses are:

ELECTIVE COURSES			
Fall Semester	ECTS	Spring Semester	ECTS
Consolidated Accounting Statements	5	Costing and Business Decision Making	5
Accounting Standards	5	Tax Accounting	5
Advanced Accounting	5	Economic and Regional Development	5
Industrial Economics	5	International Economics	5
Business Economics	5	Special Issues in Commercial	5

		Law	
Commercial Law	5	Labor Law	5
Banking Law	5	Promotion and Communication Strategies	5
Tourism Legislation	5	Non - Parametric Statistics	5
Services Marketing	5	Decision Theory and Games Theory	5
Economic Geography and Business Location	5	Methods of Regional Analysis	5
Transport Economics	5	Mathematics in 3 Dimensions	5
Social Research Methods	5	Total Quality Management	5
Consulting	5	Public Administration and Public Organizations	5
Organizational Behavior	5	Programming Principles & Business Problem Solving	5
Derivative Financial Products	5	International Marketing	5
Social Finance	5	Econometrics	5
Sociology	5	English Communication Skills in Management and Tourism	5
Evolution of Information and Communication Technologies	5	Academic Writing & Professional Communications	5
Planning Principles and Business Problem Solving	5	Financial Technology	5
Business Systems Simulation	5	Start-Ups Creation	5
Business Operations Management II	5	Theoretical Approaches and Policies in Tourism	5
Greek as a Foreign Language	5	Modern Information Systems - Applications	5
International Strategic Management	5	Organization and Management of Tourism Enterprises	5
Crisis & Conflict Management - Negotiations	5	Special Entrepreneurship Issues	5
Management, Protection - Environmental Policy	5	Maritime History	5
Introduction to Tourism	5	Tourism Economics	5
Tourism Marketing	5	Sociology of Tourism	5
Greek Tourism Development	5	Tourism and the Greek Economy	5
Internship	5	Internship	5
Undergraduate Thesis (1) * (Research methodology)	5	Undergraduate Thesis (1) * (Research methodology)	
Undergraduate Thesis (2) *	5	Undergraduate Thesis (2) *	

(Research project)		(Research project)	
--------------------	--	--------------------	--

* To complete their studies students can choose whether or not to do an undergraduate thesis.

- Those who choose a thesis must enroll for the courses Undergraduate Thesis (1) and Undergraduate Thesis (2).
- Those who do not choose an undergraduate thesis, must enroll for two other electives.

Computer Courses - Certification

Students who have passed at least four of the following courses, will receive a certificate of computer skills upon graduation.

Courses
Introduction to Computer Reasoning/Thought
Data Analysis
Management Information Systems I
Digital Marketing
Electronic Services Management
Technological Innovation and Strategy
Management Information Systems II
Development of Information and Communication Technologies
Programming Principles and Business Problem Solving
Modern Information Systems - Applications
Operations Systems Simulation

Orientation Seminar

The welcoming of new students at the DBA is open to the entire university community and all interested parties. It takes place in the beginning of the fall semester at the school auditorium in the form of a seminar. The orientation informs freshmen on key issues of their curriculum and life on the island.

Course Registration

Students must register online within the first two weeks of each semester and choose the method of assessment for each course.

Students can register at:

<https://uni-student.aegean.gr/>

Upon registration, students can:

- Attend courses and workshops.
- Be examined in the registered courses.
- Receive textbooks and course notes.

On completion of the course registration form, students make their individualized semester schedule. Before registering students are advised to consider:

- The semester course offerings.
- The maximum permitted number of courses per semester.
- The daily course schedule.

Students are advised to consult their Academic Advisor before registering.

Late registration is permitted upon approval by the Department Senate.

Students can register for the course Undergraduate Thesis by completing a special form available at the Department secretariat.

Choosing a Specialization

Having successfully completed the first two years of study, students must choose a specialization at the beginning of the fifth semester. Completion of studies in a particular specialization enables students to certify the areas of concentration in their studies.

Before choosing a specialization, students must have completed at least 50% of the core courses (14 core courses corresponding to 42 credits or 70 ECTS). They must have also completed their sophomore year.

Students may change their specialization only once. In this case courses successfully completed do not count toward their degree.

Examination Periods

There are three examination periods: January-February, June and September. The exam period lasts three to four weeks and the exact dates are decided on by the Department Senate.

➤ The Curriculum

The Curriculum has been developed to meet the following objectives.

- Course Sequence.

Knowledge is cumulative and its acquisition has to follow a certain pattern, moving from basic knowledge to more advanced. The curriculum makes provision for this process by

offering courses in sequential order.

- Rational and balanced distribution of workload.

Students are expected to allocate between 18 to 22 hours per week to attending lectures, tutorials or workshop sessions. Students are also expected to allocate an equal amount of time for home study.

- Avoiding timetable overlapping.

The curriculum timetable is drawn up so that timetable overlapping is reduced to a minimum.

- Assessing student performance

The curriculum allows for the ranking of students and their eligibility for scholarships and other benefits.

Individualizing Semester Program

Students can work out their own individual semester program based on the “n + n” formula (the student can enroll in double the number of modules that the study guide suggests for a particular semester). It is highly recommended that students consult with their academic advisor prior to finalizing their individual program.

Course offerings 2024-25

For students admitted prior to 2021-22 special provisions are made which can be found in Special Provisions Appendix I. For newly admitted students (2021-22) the course offerings per semester are the following:

Compulsory Courses			
1st Semester	ECTS	2nd Semester	ECTS

**To complete their studies students can choose whether or not to do an undergraduate thesis.*

- *Those who choose a thesis must enroll for the courses Undergraduate Thesis (1) and Undergraduate Thesis (2).*
- *Those who do not choose an undergraduate thesis, must enroll for two other compulsory courses of their choice offered in their respective specialization.*

➤ Course Outline

Click on the link below

<https://nextcloud.aegean.gr/index.php/s/KY5oFefjLyti3eR>

➤ Student Services

Students are provided with:

- *Free medical care and hospitalization* (available to all students). A health card is issued upon request.
- *Free meals* are provided to students who meet the catering criteria established by the Senate of the University. The student meal facility has been in operation since the academic year 2000-2001.
- *Housing* in 179 single rooms. Applications must be submitted from June 1st to June 15th for current students. For incoming students, applications must be submitted at registration. Selection criteria for student housing are based on a student's individual and family financial situation, as well as the location of the permanent family residence. Student accommodation is governed by the Housing Rules of the University.
- *Free textbooks and notes*.
- *Reduced fare on public transport*. A card is issued to students which entitles them to receive a 25-50% discount on ferries and a 50% discount on bus and rail transport to and from their place of residence.

The Regional Council of Student Affairs is responsible for and supervises the above services. The Regional Council is appointed by the Rector for a term of three years. The council is composed of a department head (president), two administrative officials responsible for student welfare issues and a representative of the student society (see Senate decision 50/14.05.02, th.4.2).

Certificates of Study

Upon request, the following certificates are provided:

A certificate of study.

An official transcript (listing all completed courses and grades earned).

A certificate for military service purposes.

Letters of recommendation/references are provided by the Faculty upon request.

Scholarships and Awards

Scholarships and Awards are offered to qualified students who fulfill the criteria set by the Department Senate during Graduation ceremonies.

Student Rights and Obligations

Student status is achieved when the student enrolls at the University and ends at graduation. Students are considered adults in terms of rights and obligations.

Students are entitled to the benefits mentioned above for six (6) years; that is four (4) years for the minimum time required to graduate, plus an additional (2) years.

Counseling Services

The counseling services center provides members of the academic community with psychological support and other services aiming at addressing problems and promoting general well-being.

Opening Hours:

Monday-Thursday 08.15 – 14.15

Friday 08.15 – 14.00

Contact Info: 22710-40704, 22710-20838 (Stratos Tsoukaris, Marina Kyriakou)

Address: 42 Rodokanaki St, 82100, Chios

8. ERASMUS+ Program

The Erasmus+ program enables students to attend courses in participating universities abroad as well as do funded internships in enterprises abroad.

Students participating in the Erasmus+ program receive a grant for one to two semesters and are exempt from tuition fees at the host institution. Students who successfully complete courses at the host university may apply for ECTS credits transfer (<http://erasmus.aegean.gr>).

9. Doctorate Degree - Ph.D.

Graduate students can do a doctoral dissertation in fields related to the disciplines included in the undergraduate and post graduate study programs. The program admits Master degree holders from Greek or overseas universities as well as undergraduate degree holders.

The following documentation is required:

- Proposed topic of Doctoral Thesis
- Concise Draft Proposal of the Doctoral Thesis
- Suggested language of the doctoral thesis, (may be different from Greek).
- An eligible supervisor.
- Detailed Curriculum Vitae
- Other documents required by the program

The duration of doctoral studies cannot be less than three (3) calendar years. Six (6)

calendar years is the maximum duration for the completion of a doctoral thesis. In exceptional cases the maximum duration may be extended, at the request of a doctoral candidate, after the consent of the three-member advisory committee. The Department's Doctoral Studies Regulations specify extension issues.

PhD candidates have the following obligations:

- a) submit a detailed written report on the progress of their thesis to the three-member advisory committee once a year. They should also make an oral presentation of their progress,
- b) cooperate with their supervisor and members of the advisory committee who support them with the preparation of their thesis;
- c) they provide teaching assistance in the undergraduate program as indicated by their supervisor and
- d) fulfill any other obligations specified in the rules and regulations of graduate and doctoral studies.

Doctoral candidates have the same rights as graduate students and any other rights specified in the regulations for doctoral studies. They may also participate in the research programs of the University and receive financial assistance to fund their research.

Upon completion, the thesis is submitted to the three-member advisory committee, and then the doctoral candidate submits a request for its defense in accordance with the doctoral studies regulations

Appendices

Appendix I

A. TRANSITIONAL PROVISIONS IN THE NEW UNDERGRADUATE PROGRAM

A. Students who have not chosen a specialization.

Starting with academic year 2021/22, students who have not already chosen a specialization have to follow the new curriculum. To obtain the Bachelor's degree students need to take 28 core courses, 4 + 4 specialization courses, and 12 elective courses. (The latter includes the undergraduate thesis that students may have already prepared). The core courses students have already taken count as such in the new curriculum until 28 courses have been completed. These courses are taken in the following order: Mathematics, Introduction to Economics, Management A, Introduction to Marketing, Accounting A, Introduction to Informatics, Accounting B, Microeconomics A, Statistics A, Technological Innovation and Strategy I, English A, English B, Introduction to Law, Business Operations Management I, Costing A, Microeconomics B, Statistics B, Macroeconomics, Civil Law, Financial Statement Analysis, Financial Management, Management Information Systems, Portfolio Management, Operations Research, Operations Strategy and Policy, Logistics Management, Data Analysis, Management B, Political Economy, Commercial Law, International Economics, Business Operations Management II, Sociology, Introduction to Tourism. Portfolio Management is excluded for those students who specialize in Finance. This course is considered a specialization course, and is not taken as mentioned in the above order.

A student who has passed more than 28 of the above courses, calculates in the above order the first 28 as core courses, and the rest as elective courses.

A student who has passed fewer than 28 of the above courses, must pass as many core courses as needed from the pool of courses below in the following order: Mathematics in Business Administration, Introduction to Economics, Introduction to Business Administration, Introduction to Marketing, General Accounting Principles I, Introduction to Computer Reasoning, General Accounting Principles II, Microeconomics A, Business Administration Statistics, Innovation Management, English A, English B, Introduction to Law, Business Operations Management I, Introduction to Costing, Microeconomics B,

Data Analysis, Macroeconomics, Contract Law, Financial Statements Analysis, Financial Management, Information Systems Management I, Business Administration, Operations Management and Policy, Supply Chain Management, Human Resources Management, Entrepreneurship, Business Ethics.

Students do not have to take any of the above courses if they have already passed them in the previous curriculum, regardless of whether they retain or have changed their name. Data Analysis is omitted for those students who have already passed Statistics B.

B. Students who have already chosen a specialization.

At the beginning of the academic year 2021/22, students who have chosen a specialization in the previous curriculum, continue their studies in it. To obtain their degree they need to pass 34 core courses, 6 compulsory stream courses, and 8 specialization elective courses. (The undergraduate thesis is included in these 8 courses). These students can change specialization in the following Fall semester while remaining in the previous curriculum. They are also given the option to continue in the new curriculum by choosing the new specializations. The above options can be exercised only once.

Students who have chosen to continue with the new curriculum need 28 core courses, 4 plus 4 specialization courses, and 12 elective courses in order to obtain a degree. (The undergraduate thesis is included in the above 12 courses).

B1. Students who have already chosen a specialization and continue with the previous curriculum.

Each course that is still offered in the new curriculum, with the same or a different name, retains its former status (core course, specialization course, compulsory, elective). The courses that are no longer offered in the new curriculum will not be taught or examined as of the academic year 2021-2022.

Students who have not passed Statistics B or Data Analysis in the previous curriculum will have to take Data Analysis and one elective course. Students who have passed either Statistics B or Data Analysis in the old curriculum, will have to take an additional elective course (excluding Data Analysis).

Students who have not passed Business Administration B' in the previous curriculum will have to take Entrepreneurship in its place.

Students who have passed Entrepreneurship in the previous curriculum and have not passed Business Administration B, will have to take an additional elective course.

Students who have not passed Political Economy will have to take an elective course in its place.

B2. Students who have already chosen a specialization and continue with the new curriculum.

Regarding the core courses, the same applies as in category A above. The same applies to students who have not passed any specialization course.

Regarding specialization courses that have already been passed, the following are in effect.

If this is a specialization course that the student will now have to take, it counts as such.

If this course is in a different specialization, it counts as a free elective course.

If this is an elective course, it counts as such.

If this course is a core course, it counts as such (as in category A above).

If this course is canceled, it counts as free elective.

Finally, students who started with the old Curriculum and continues with the new one will be able to register for and include among the elective courses required to complete their studies any of the core courses of the new Curriculum they are not required to take as such.

B. LIBRARY RULES AND REGULATIONS

All members of the academic community as well as the general public can use the library.

Lending

- Only members of the academic community of the University of the Aegean have the right to borrow from the library, presenting a valid library card.

Non-lendable Items:

- Reference books
- Periodicals
- Audiovisual Material
- High demand books
- Material requiring maintenance.
- Doctoral dissertations, post-graduate theses, undergraduate theses
- Rare material
- New arrivals

Lending period for other library material:

- Faculty and post-graduate students: 15 days
- Undergraduate students and administrative staff: One week lending period may be extended upon request.

Special collections material not directly related to the study programs of the Department maybe borrowed for longer periods.

Lending time can also be decreased depending on demand. Visiting faculty and students can have access to library services.

- Users may renew the lending time up to three times in one-week intervals, providing that the reading material has not been reserved by or asked for by another user. In exceptional cases, the library supervisor can recall any books that are in high demand.
- Reservations can be made for any reading material.
- When library material is retained or overdue, lending rights are suspended until it is returned.
- A fine is imposed on any person that sets off the library's security system when attempting to remove material from the library, without having first checked it out.
- Undergraduate students, administrative, and technical staff may borrow up to three pieces of reading material at the same time, postgraduate students six and faculty eight.

- If a user damages library material or loses it while it is in his/her possession, s/ he must replace the material within 15 days.
- Personal belongings (briefcases, bags, etc.) should be left in the locker area upon entry to the library.
- Readers should leave library material on the tables after use.
- Smoking, mobile phones, food or drinks are not allowed in the library.
- The opening hours of the library can vary and are scheduled based upon available personnel.
- When the library closes for inventory, it notifies users three months in advance. During these three months, all users are required to return loaned material. Any material that is not returned within that time frame is considered lost and chargeable.

C. EXAMINATION REGULATIONS

Introduction

Exam regulations are necessary for maintaining the integrity of the examination process.

Exam Preparation

- The Department Senate sets the dates of the exam period.
- The detailed examination schedule for fall and spring semesters is announced at least 30 days before exams.
- The detailed schedule for the examination period in September is announced by the end of the spring exam period.
- The detailed schedule for exam supervision is sent to teaching and supervisory staff 15 days prior to the examination period.

Before the Exam

- The examination rooms are open 15 minutes before the start of the exam.
- Each examinee is expected to be present at least 15 minutes before the start of the exam.
- Exam supervisors are required to be present at the Secretariat of the Department at least 15 minutes before the start of the exam.
- Supervisors are responsible for the seating arrangement of examinees as well as the integrity of the examination process.
- Examinees are required to remove from their desks all books or any other material relevant to the exam. Mobile phones or any other electronic devices are not allowed during exams, unless approved by the teaching staff.
- Exam cancellations and exam rescheduling are decided upon by the Department Senate, or the Department Head.
- Exam supervision is conducted by the teaching staff and other university adjuncts such as PhD students, university fellows or post-PhD students.

Examination Results

Grades are submitted within ten (10) days after the exam period.

Once the grades are announced, students may ask to see their marked exam up to two months after exam results have been issued. Exam papers are kept until their disposal is decided upon.

An exam archive may be available at the Library.

Duties and Obligations of Faculty- Examiners

- Before exams faculty examiners must announce the following:
- The examinable material
- Bibliographic references
- Exam type (oral, written, etc.)

The monitoring of the examinations is primarily the responsibility of the faculty. Faculty members must be present during exams to make clarifications and answer questions students may ask.

If for any reason the examiner is absent on the day of the exam, the Department Head may ask another examiner to administer the exam.

Duties and Obligations of Examinees

Students must carry their ID card and present it upon request.

Students are responsible to conduct themselves appropriately and follow the instructions of exam supervisors, otherwise they may be expelled and penalized. They are not allowed to participate in an exam when they arrive 15 minutes after the commencement of the exam. Latecomers are not allowed extra time, and students cannot leave the examination room for the first 15 minutes of the exam. Students who must leave the room temporarily may do so only if accompanied. Exam papers cannot be taken out of the examination room without approval. Certificates of exam attendance are issued upon request.

Students who are physically challenged may be given alternative forms of examination.

- **Upholding Regulations and Exam Integrity**

The Department Senate is responsible for upholding exam regulations and imposing sanctions when they are violated. Violations are considered by the Department Senate after the end of the exam period and before results are announced.
